/COFFEE BREAK

Our coffee blend is skilfully roasted in Athens by our collaborator **Taf Coffee**. It is a UTZ Certified coffee with a good body, medium to high acidity, citrus and caramel aroma, sweet and smooth taste of orange peel.

A perfect cup of coffee can't be the result of coincidences. It all starts from the place where the beans are harvested and the path to your cup can be more complex than someone may think. And since not all beans are created equal, we find the best quality. Trying to get the best possible balance for the cup, we created this coffee blend, in collaboration with Taf Coffee.
